

NOTICE: Pile Driving at the Pinole-Hercules WPCP Upgrade Project

The Pinole-Hercules Water Pollution Control Plant Upgrade Project is now under construction. The foundation work for some of the new structures includes driving concrete piles. During the pile driving activities, there will be time periods when there will be considerable noise. This year, pile driving is scheduled to begin on September 28, 2016 and is expected to be completed by October 19, 2016. Work hours for pile driving are limited to 9:00 am to 4:00 pm Monday through Friday. Other construction work continues from 7:00 am to 4:30 pm, Monday through Friday.

Please bear with us during these few weeks of pile driving as construction moves ahead.
