1. The purpose of this Section I D is to preserve and protect the work opportunities that will be available to employees covered by this Agreement at the jobsite or job yard.
2. The terms and conditions of this Agreement, insofar as it affects the Employer and the Individual Employer, shall apply equally to any subcontractor of any tier under the control of, or working under oral or written contract with such Individual Employer on any work covered by this Agreement to be performed at the job site or job yard, and said subcontractor with respect to such work shall be considered as an Individual Employer covered by this Agreement.
3. If an Individual Employer shall subcontract work herein defined, the work will be subcontracted to a subcontractor signatory to the appropriate Agreement with the Union. Such subcontract shall state that such subcontractor is or agrees to become signatory to an appropriate Agreement with the Union and will comply with all the terms and provisions of said Agreement including the payments of wages, Trust Fund contributions and fringe benefit payments. A copy of the subcontract and signature shall be furnished to the Union upon request.
4. The term "subcontractor" means any person, corporation or other entity, other than an employee covered by this Agreement, who agrees, orally or in writing, to perform for, or on behalf of the Individual Employer, any part or portion of the work covered by this Agreement. The subcontractor shall be properly licensed as required by the California State Contractors License Law.
5. The Individual Employer will give written notice to the Union of any subcontract involving the performance of work covered by this Agreement within five (5) days of entering such subcontract and/or prior commencement of work by the subcontractor, unless such notice is prevented by emergency conditions, and shall specify the name and address of the subcontractor.
 - (a) If thereafter the subcontractor becomes delinquent in the payment of any wages, Trust Fund contributions, or fringe benefit payments, the Union or the Trust Fund office shall give prompt notice of the delinquency, confirmed in writing, to the Individual Employer and to the subcontractor. The notice shall specify the name and amounts, if known, of the delinquency.

-
- (b) Said notification by the Union or the Trust Fund office shall be provided within twenty (20) days of publication of the Delinquency List provided by the Trust Funds, or if in the case of failure to pay wages, five (5) days from the applicable pay day. If such notice is given, the Individual Employer shall pay and satisfy only the amount of any such delinquency by such subcontractor occurring within ninety (90) days prior to the receipt of said notice from the Union, and said Individual Employer may withhold the amount claimed to be delinquent out of the sums due and owing by the Individual Employer to such subcontractor.
- (c) Notwithstanding the provision set forth above, if the subcontractor is found in violation of the hiring provisions of this Agreement, pursuant to the provision of Section IX (Arbitration of Disputes), and the Union is unable to collect from the subcontractor the damages determined to be owing for such violation, the Individual Employer shall then be liable for the payment of such damages. The total of this liability, as it would apply to the Individual Employer, shall be for no more than five (5) days violation or the total of the subcontractor's retention being held by the Individual Employer, whichever amount is greater.
6. If the Individual Employer fails to give written notice as required in this Section I, he/she shall, until notice is received, assume liability for any violation of the terms and conditions of this Agreement at that particular jobsite or job yard, as may be determined by the Arbitration of Disputes. If the subcontractor is signatory or otherwise bound to an Agreement with the Union, the Individual Employer shall be liable only for delinquencies as set forth in subsection 5(a) of this Section I for work on that jobsite or job yard. If the subcontractor is not in compliance with this Agreement, then the Individual Employer shall be liable for any violation of this Agreement on that jobsite or job yard.
7. If the Union should make demand in writing for exercise of this Section, the Individual Employer will require that any subcontractor of the Individual Employer specified in the demand will, if the employer has not already done so, post a surety bond in an amount not to exceed \$75,000.00 to cover payments of wages, Trust Fund contributions and fringe benefit payments specified in this Agreement. Failure of the Individual Employer to comply with this Section within two (2) days of demand will make the Individual Employer liable for the delinquencies of the subcontractor occurring on the Individual Employer's specific job. The amount of the bonds specified in this subsection in no way affects the amounts specified for bonding purposes elsewhere in this Agreement.
8. The Individual Employer has the primary obligation for performance of all conditions of this Agreement. This obligation cannot be relieved, evaded or diminished by subcontracting. Should the Individual Employer elect to subcontract, the Individual Employer shall continue to have such primary obligation. Said primary obligation shall be deemed conclusive evidence of the Union's majority status for the purpose of establishing the obligation of the Individual Employer to bargain collectively pursuant to Section 8(a)(5) of the National Labor Relations Act as amended with the Union upon expiration of this Agreement but for no other statute, rule, regulations, or law.
9. The provisions of this Section may be enforced only through the Arbitration of Disputes provisions of this Agreement.
-

10. It is the intent of the parties to enforce the provisions of this Section only to the extent permitted by law.
11. Notwithstanding any other provisions of this Agreement or any Memorandum Agreement to the contrary, the provisions of this Section shall not be enforced by strike action or any other form of job shutdown or work interference; provided, however, that the rights provided in Section IX (Arbitration of Disputes) of this Agreement are retained to enforce primary obligations of any Individual Employer.
12. Payment by cash or second multiple checks or combination thereof and the payment of excessive premium rates, excessive travel time, or bonuses shall be prima facie evidence of an attempt to violate the provisions of this Section. The foregoing shall not apply to an annual bonus paid to supervisors.
13. Subcontracts shall not be in compliance with this Section if the effect of such subcontract is to diminish, eliminate or circumvent the payment of wages, fringe benefits or the hiring hall provisions established by this Agreement.
14. Should an Individual Employer party to this Agreement perform work or subcontract work covered by the Carpenters Master Agreement for Northern California, the Individual Employer shall observe the terms and conditions of that Agreement.

Section II Recognition and Hiring

A. Recognition:

1. Recognition of Employer:

The Union hereby recognizes the Employer as the sole and exclusive bargaining representative for their respective members, present and future, who are, or hereinafter become members. Notwithstanding any provisions of this Agreement, including Section II 2, it is the specific understanding of the parties that only those members of the Employer who have authorized the Employer to execute this Agreement on their behalf, or who execute the Agreement directly with the Union, shall be bound to this Agreement.

2. Employer Membership:

This Agreement shall be binding upon each and every member of the Employer with the same force and effect as if this Agreement were entered into by each member individually. All members of the Employer shall be and continue to remain liable under this Agreement for and during the term hereof, irrespective of whether said members shall resign from the Employer prior to the expiration date of this Agreement, and such liability shall be deemed to have survived the termination of said membership and remain in force for and during the term of this Agreement. Such former members shall be bound by any renewals or extensions of this Agreement unless they give the Employer and the Union at least sixty days written notice prior to expiration date, or any subsequent yearly anniversary date in which this Agreement terminates, of their intent not to be bound by the new or renewed Agreement.

The Employer shall advise the Union, in writing, monthly of changes in the membership of the Employer.

3. Union Recognition:

The Employer and each Individual Employer expressly acknowledge that they and each of them have satisfied themselves that the Union represents a majority of employees employed to perform bargaining unit work and agrees that the Union is the collective bargaining representative of such employees. The Employer on behalf of itself and each of its members specifically agrees that it is and they are establishing, or have established, a collective bargaining relationship by this Agreement within the meaning of Section 9 of the National Labor Relations Act of 1947 as amended.

4. Independent Agreement:

This Agreement is separate and distinct from and independent of all other Agreements entered into and between the Union and other Employer Organizations irrespective of any similarity between this Agreement and any other such Agreements, and no acts or things done by the parties to such Agreements or notices given pursuant to the provisions thereof, shall change or modify this Agreement or in any manner affect the contractual relationship of the parties herein.

B. Union Security:

1. Every person performing work covered by this Agreement who is a member of the Union and in the employment of an Individual Employer on work covered by this Agreement on the effective date of this Subsection II B, shall, as a condition of employment or continued employment, remain a member in good standing of the Union. Every other person covered by this Agreement and employed to perform work covered by this Agreement shall be required, as a condition of employment, to apply for and become a member of and to maintain membership in good standing in the Union on or after eight (8) days of employment on such work with an Individual Employer or the effective date of this Subsection II B, whichever is later. Membership in the Union shall be available to any such person on the same terms and conditions generally applicable to other members. This Subsection shall be operative only to the extent permitted by Section XII of this Agreement.

If Federal law is hereafter amended to permit a lesser requirement for union membership or union membership as a condition of employment than provided in this Subsection, the Employer and the Union will promptly enter into negotiations with regard to such subject.

2. The Individual Employer shall not be required to discharge any employee pursuant to this Subsection II B until a written notice from the Union of such employee's non-compliance with this Subsection, stating all pertinent facts showing such non-compliance, shall have been served upon such Individual Employer and two (2) working days have been allowed for compliance therewith.
3. The Union shall place at the end of the journeyman registration list any person on the list who demonstrates a lack of journeyman skills, qualifications, or work ethic. A person's lack of skills, qualifications, or work ethic shall be based on the following:

at least three (3) different Individual Employers have documented in writing within a nine (9) month period the person's lack of skills, qualifications or work ethic.

A person placed at the end of the registration list shall be referred to the Northern California Pile Drivers Joint Training Committee for testing and evaluation. If the Training Committee determines that the person has the skills and qualifications of a journeyman pile driver, such person shall be reinstated to his/her place on the registration list. If the Training Committee determines that the person does not have the required skills and qualifications of a journeyman, the Training Committee shall prescribe a course of training and shall remain where they were placed on the registration list.

Once a person receives three (3) letters, the person shall not be able to select any classification on the list for which he/she has received a letter, until he/she is evaluated by the Training Committee. Written notification shall be presented to the journeyman at the time of termination and a copy shall be sent to the union.

After evaluation, the person shall not be able to select any classification on the list for which he/she has been determined to lack the required skills and qualifications until he/she successfully completes the course of training prescribed by the Training Committee.

Possession of a valid dispatch issued by the Union shall be deemed sufficient evidence to the Individual Employer that the employee has, in fact, registered on the out-of-work list as required by this Section.

6. When ordering workers of the skills required, the Individual Employer will give notice to the Union, if possible not later than 2:30 p.m. of the day prior (Monday through Friday) or, in any event, not less than 17-1/2 hours, if possible, before the required reporting time and in the event that, 48 hours after such notice (Saturdays, Sundays and recognized holidays excluded), the Union shall not furnish such workers, the Individual Employer may procure workers from any other source or sources. Vacation and Work Fee amounts are added to the hourly rate to establish the gross pay. The gross amount is subject to normal payroll deductions, the full vacation and work fee contribution are deducted, reported and paid to the appropriate Trust Fund.

Whenever non-union or non-signatory Contractors appear on public work projects where wage determinations exist, such predetermined wage and fringe rates referenced in the bid specifications shall remain in effect for the duration of said project, provided, however, that each segment let by the Owner shall be deemed the project; provided, further that this provision shall not apply to projects where the formal advertised sealed bid procedure is not used. Increases in trust fund contributions shall not be subject to this provision, provided, further, that in no event shall wages be frozen for more than thirty-six (36) months on any one project.

2. Employees whose regular duties are as welders and burners shall have their necessary protective gear maintained by the contractor. Upon sign up on a job or project, the condition of the employee's gear will be noted and jointly agreed to in writing by the Individual Employer and the Employee. When an Individual Employer requests a certified welder such worker shall possess and maintain an active Certification Card from an Accredited Testing Laboratory certifying that the worker had passed a welding test for the type of welding for which the worker has been requested, i.e., A.W.S. State of California, etc.

Any employee wishing to become certified and willing to take the necessary welding tests on his/her own time from the appropriate certified testing laboratory or testing facility shall be reimbursed for the testing cost, provided the worker has received prior approval in writing from their employer, from the Welding and Scholarship and Training Account.

- A. The parties have adopted a Welding and Scholarship and Training Account. Any journey or apprentice level pile driver who upon his/her own volition and on his/her own time secures one of the following welding certifications at the Carpenters Training Center shall be entitled to certification incentives from the Carpenters Training Committee, provided the worker is or becomes eligible to receive Health and Welfare benefits through the Northern California Carpenters Trust Fund.

The Welding and Scholarship and Training Account incentive shall be as follows:

2G = \$100.00
3G = \$200.00

4G = \$300.00

6G = \$400.00

Workers who have failed to update their welding certification and have received incentives from the Welding and Scholarship and Training Account within the term of the Agreement shall not be eligible for additional incentives from the Welding and Scholarship and Training Account.

Effective July 1, 2004, the Apprenticeship Training Trust shall increase by five cents (\$.05) per hour in order to fund the new Welding and Scholarship and Training Account. The Geographic and Marketing Committee shall evaluate and adjust on a yearly basis the funding requirements to maintain the trust. Any changes or modifications made to the trust must be reviewed and posted with the DIR by February of each year.

3. The Geographic and Marketing Committee has elected to pay any journey level member of Pile Drivers Local Union #34 who attends and completes the thirty-two (32) hour Qualified Rigger Class or the eight (8) hour Qualified Refresher Rigger Class at the Carpenters Training Center the amount of four hundred dollars (\$400.00) for the 32 hour class or one hundred dollars (\$100.00) for the eight (8) hour class, provided the individual member is in good standing and is eligible for Health and Welfare Benefits from the Northern California Carpenters Trust Fund.

Workers who have failed to update their rigging certification and have received Rigger Class incentives from the Geographic and Marketing Committee within the term of the Agreement shall not be eligible for additional incentives from the Geographic and Marketing Committee.

The Geographic and Marketing Committee directs that the Welding and Scholarship and Training Account reimburse the Carpenters Training Committee for the difference between straight-time wages and overtime wages paid to rank-and-file rigging instructors by the Carpenters Training Committee for hours worked after April 18, 2011 on Saturdays and Sundays and authorizes the Chairman of the Geographic and Marketing Committee and the Financial Secretary-Treasurer of Pile Drivers Local Union #34 to jointly review and approve such reimbursements.

4. On bridges, powerhouses and dams, workers working from bosun's chairs or swinging scaffolds or suspended from rope, cable, safety belts, or any device used as a substitute for or in lieu thereof (excluding pile driving rigs) shall receive fifteen cents (\$.15) per hour above the applicable journey or apprentice rate.
- B. **Show Up Time:** Any employee covered by this Agreement who is called to work at a given point or project and is not put to work shall be paid two (2) hours time. On days when the elements of nature prohibit the work from going on, workers reporting for work shall be paid two (2) hours pay (at straight time), provided they remain at the jobsite during this time ready to work should the weather clear. For the purpose of this Subsection IV 3B only, an employee shall be classified as pile driver and shall be entitled to the provisions of this subsection unless such employee has been assigned or reassigned to carpenter work by the Individual Employer prior to quitting time of the preceding work day.
- C. Employees time, including Saturdays, Sundays and holidays (other than broken time or tide work) shall be reckoned by the half or full day, except overtime, which shall be reckoned by

the hour and half-hour, except when an employee voluntarily quits or is laid off by reason of bad weather or a breakdown of essential equipment.

Dispatch hours will be 8:30 a.m. & 4:00 p.m. Monday through Thursday and 11:00 a.m., on Friday. It shall be considered an "Emergency Dispatch" when a request is made for a worker to report to the job "as soon as possible." It shall not be considered an "Emergency Dispatch" when a worker is requested to report at the start of the shift or the midpoint of the shift. When a worker reports as promptly as possible under an "Emergency Dispatch" he/she shall be paid from the starting time of the half shift during which he/she reports. Nothing in this clause shall be construed to justify a demand for pay for hours not worked because of failure to arrive at the start of the shift except on the first day of reporting for work as aforementioned in this clause.

- D. When workers work in inclement weather for emergency reasons it shall be for the duration of the emergency only and time shall be reckoned by the full or half day. If a job is designated as an emergency job by the owner or the contractor and a request is made to the Union by the Individual Employer to work the job, rain or shine, the Union may agree provided adequate and complete rain gear is furnished each worker by the Individual Employer.
- E. In the congested metropolitan areas of San Francisco, Oakland, Stockton, Sacramento and Eureka where free parking facilities are not available within three (3) blocks of the jobsite, the Individual Employer will provide such facilities and the Individual Employer shall have the right to designate parking areas to be used. Where, because of congested parking conditions, it is necessary to use public facilities, the Individual Employer shall reimburse the employee for the cost of such parking upon being presented with a receipt or voucher certifying the cost thereof, such reimbursement to be made on a weekly basis or at the conclusion of the project whichever occurs earlier.
- F. **Efficiency:** It is agreed that the Pile Drivers, through their business agents, use their efforts to encourage greater efficiency and safety on the job and that they refrain from solicitation of premium payment for employees represented by the Union.

Except as provided in Section V hereof, neither party to this Agreement shall by working rules or any other means or device impose or direct any work limitations, affecting quantity restrictions, quotas or units of production, either maximum or minimum or relating to work covered by this Agreement.

No rules, customs or practices shall be permitted that limit production or increase the time required to do any work. There shall be no limitation or restriction of the use of machinery, tools, or other laborsaving devices supplied by the Individual Employer.

- G. Each Individual Employer shall provide a payroll check to each employee on a weekly basis. Each Individual Employer shall provide with each payroll check an itemized check stub showing separately date of issuance, each contribution and deduction made for the pay roll period covered by the check or a separate statement showing the name of the employee, the name and the Individual Employer's contractors license number and/or address, and the employee's social security number. There shall be no cash payment of any nature or kind whatsoever.

Should an Employer compensate an employee with a check for which payment is refused by the Employer's bank because of insufficient funds or should an Employer fail to pay his employees on a regular, established pay day for his job, the obligation of the Employer to the individual employee shall continue at the employee's regular straight time rate for a period not

to exceed forty (40) hours notwithstanding the above unless the refusal of payment by the bank is due to the bank's error or omission or to circumstances which are beyond the control of the Employer. Any question concerning responsibility of the Individual Employer on whether the omission is beyond his control shall be subject to the Grievance Procedure of this Agreement. Nothing herein shall, however, prevent the Individual Employer from changing the payroll date upon five (5) days' notice to the appropriate local union of the union that the employee's pay date is being changed.

If terminated by the Individual Employer for any reason, the employee shall be paid immediately in full. His pay status shall continue for each calendar day until pay is received; provided, however, that not more than eight (8) hours pay shall be charged for any calendar day with a maximum of five (5) days.

An employee who reports to work at the beginning of the shift on a job or project for the first time on a Monday and who submits a written request prior to the end of the shift on Thursday shall receive pay on Friday prior to the end of the shift for the hours worked that Monday. The Employer may issue a cash advance not to exceed the hourly wages only earned Monday in lieu of an actual pay check.

H. Future Wage Considerations

As per Sections IV (Wage Scales) and Section VII (Fringe Benefits) of the Pile Drivers, Divers, Carpenters, Bridge, Wharf and Dock Builders Local Union #34 Master Labor Agreement, the Union and Employer hereby agree to accept the action of the Trustees and agree to implement the following increases effective July 1, 2011, July 1, 2012, July 1, 2013, and July 1, 2014:

This understanding is entered into by the parties signed hereto on, 1994 and shall remain in effect until the expiration of the Master Agreement.

The Union and the Employer establish this Policy in order to provide the Individual Employers with a comprehensive substance abuse program, to provide Employees who abuse and/or are addicted to drugs, including alcohol, a means to receive treatment for their abuse and/or addiction, and to provide for a safe workplace. An Individual Employer is not obligated by this Agreement to have a substance abuse policy. Implementation of this Policy is not mandatory by any Individual Employer, but this Policy is the only Policy the Individual Employer may implement for Employees. Once implemented, the Policy shall remain in effect unless otherwise agreed to by the Union and the Individual Employer.

II. NOTICE

- A. An Individual Employer must give written notice to the Union that it is implementing this Policy. The notice shall be delivered to the Union at the following address:

Northern California Carpenters Regional Council
265 Hegenberger Road, Suite 200
Oakland, CA 94621
Fax: 510-568-7916

- B. The Individual Employer may not implement this Policy unless it subjects all management and supervisory employees to the same type of testing provided herein.
- C. An Individual Employer who has implemented this policy shall advise the Union dispatchers with whom it places an order for Employees that it intends to drug test dispatched Employees. A test result shall not be set aside because an Individual Employer does not give such notice.
- D. An Individual Employer who implements this Policy shall provide written notice of this Policy to all Employees including those dispatched to it by the Union and shall provide each Employee with a copy of the Policy.
- F. Failure to give a form of notice of this section shall make any drug testing engaged in by the Individual Employer a violation of the applicable Master Agreement, and no results of any such test shall be relied upon to deny employment or pay or to discipline any Employee.

III. PURPOSE OF POLICY

- A. The Employer, Individual Employer(s) and the Union are committed to providing a safe and productive work environment for Employees. The Employer, Individual Employer(s) and the Union recognize the valuable resource we have in our Employees and recognize that the state of an Employee's health affects attitude, effort, and job performance. The parties recognize that substance abuse is a behavioral, medical and social problem that causes decreased efficiency and increased risk of accidents and injury. The Employer, Individual Employer(s) and the Union therefore adopt this Policy. The intent of the Policy is threefold:

1. To maintain a safe, drug and alcohol free workplace;
 2. To maintain our workforce at its maximum effectiveness; and
 3. To encourage confidential referral to the Employee Assistance Program (EAP) by Employees Health and Welfare Program.
- B. In order to achieve these purposes, it is our primary goal to identify those Employees and refer them to professional counseling, and treatment before job performance has become a disciplinary problem. Employees are urged to use the services available through the union EAP Health and Welfare Plan
1. Treatment for substance abuse and chemical dependency is provided under the Health and Welfare plan, up to the limits described in the plans.
 2. An Employee shall be granted necessary leave of absence for treatment.

IV. CONFIDENTIALITY

The Individual Employer will abide by all applicable State and Federal laws and regulations regarding confidentiality of medical records in any matter related to this Policy. The Individual Employer shall designate one of its management, supervisory or confidential employees to be its custodian of records and contact person for all matters related to this Policy. All such records shall be kept in a locked file, which shall be labeled 'Confidential'. Employee record, related to this Policy shall not be kept in the Employee's personnel file.

All information from an Employee's drug and alcohol test is confidential for purposes other than determining whether this Policy has been violated. Disclosure of test results to any other person, agency or organization is prohibited unless written authorization is obtained from the Employee. The results of a positive drug test shall not be released until the results are confirmed. Every effort will be made to ensure that all employee issues relating to this policy will be discussed in private and actions taken will not be made known to anyone other than those directly involved in taking the action, or who are required to be involved in the disciplinary procedure.

V. TESTING

Testing for the presence of alcohol or controlled substances and/or their by-products in one's body may only be performed under the conditions set forth herein. All testing shall be done in accordance with the standards established by the Substance Abuse and Mental Health Service Administration ('SAMHSA'), any successor agency, or any other agency of the federal government which has responsibility for establishing standards for drug testing. All such agencies shall be collectively referred to as 'SAMHSA'.

Chain of Custody: All SAMHSA standards for Chain of Custody will be adhered to. A specimen for which the SAMHSA standards are not complied with shall not be considered for any purpose under this Policy.

Laboratories: All laboratories, which perform tests under this Policy, shall be SAMHSA certified.

Testing Procedures and Protocols: All SAMHSA standards for testing standards and protocols shall be followed. All specimens, which are determined to be positive by the SAMHSA approved screening test, shall be subject to a SAMHSA certified confirmatory test (gas chromatography/mass

spectrometry). This Agreement shall include the Varian Oral Screen or any of its equivalents, as approved by the G & M Committee.

Second Test: The laboratory shall save a sufficient portion of each specimen in a manner approved by SAMHSA so that an Employee may have a second test performed. Immediately after the specimen is collected, it will be labeled and then initialed by the Employee and a witness. If the sample must be collected at a site other than the drug and/or alcohol testing laboratory, the specimen shall then be placed in a transportation container. The container shall be sealed in the Employee's presence and the Employee shall be asked to initial or sign the container. The container shall be sent to the designated testing laboratory on that day or the earliest business day by the fastest available method. Any Employee whose specimen is tested positive and who challenges a test result may have the second portion of the sample tested at his/her expense and at a laboratory agreed upon by the Employee and the MRO so long as that laboratory is SAMHSA certified. If the second test is negative, the Employee will be considered to have been tested negative.

Cut-Off Level: SAMHSA standards for cut-off levels will be complied with when applicable. The cut-off levels for both the screening test and the confirmatory test shall be per the Federal Standards as determined by the Department of Health and Human Services (DHHS). Only tests, which are positive pursuant to the SAMHSA standards, shall be reported to the Medical Review Officer as positive. A .04 blood/alcohol or above shall be considered to be positive.

Medical Review Officer: A Medical Review Officer (MRO) shall verify all positive test results. The MRO must be a licensed physician. The MRO shall be a member of the American Society of Addictive Medicine (ASAM), if available. If no ASAM members are available, the MRO shall be certified by the Medical Review Officer's Certification Council. The Union shall approve all MROs. Upon verification of a positive test result, the MRO shall refer the affected Employee to EAP for assessment and referral to treatment, if appropriate.

Consent Form: Any Employee directed to submit to a test in accordance with this Policy will sign a consent and release form, a copy of which is attached hereto, (Form 'A'). The consent and release form will only authorize: (1) the facility where the specimen is collected to collect the specimen; (2) the laboratory which performs the test to perform the test and to provide the results to the MRO and, if negative, to the Individual Employer; and, (3) the MRO to verify tests and report to the Individual Employer whether the test is positive or negative. The consent and release form shall notify the Employee that he/she may have a Union representative present, if available.

The Employee may be disciplined if he/she refused to sign the authorization if the Individual Employer has advised the Employee: (1) he/she must sign it or he/she will be disciplined up to and including termination; (2) the release is limited as provided herein; and (3) the Employee has a right to consult with a Union representative before signing the release and before submitting to the test. An Employee who believes the Individual Employer is improperly directing him/her to submit to a test may file a grievance under the Pile Drivers Master Agreement. The test results will be disregarded if the Board of Adjustment or Arbitrator determines the Individual Employer was not authorized by this Policy to direct the Employee to submit to the test.

Substances to be Tested For: A specimen may be tested for alcohol, Cannabinoids (THC), barbiturates, opiates, cocaine, phencyclidines (PCP), amphetamines and methaqualone or the by-products of these substances. A specimen shall not be tested for anything else. If DOT revises its list of substances for which it requires employers to test, this Section shall be revised to include those substances. The laboratory will report positive test results to the MRO. The MRO will verify whether the test is positive or negative. The MRO shall report to the Individual Employer whether the Employee tested positive or negative for one of these substances. The MRO will not identify the substance(s) for which the Employee tested positive.

Urine Test or Breath Test: The Individual Employer may direct the Employee to submit to a urine test for alcohol and/or other drugs, or a breath test for alcohol.

Notification to Employer of Test Results: The laboratory shall report negative test results to the Individual Employer. The laboratory will report positive test results to the MRO. The MRO will verify whether the test was positive or negative and will report the final results to the Individual Employer.

VI. TYPES OF PERMISSIVE TESTING

A. TIME OF DISPATCH TESTING

An Individual Employer may require an Employee to be tested for the presence in the Employee's body of one of the drugs or by-products thereof set forth above at the time the Employee is dispatched (on one (1) of the first three (3) day(s) of employment). It must test all Employees at the time they are dispatched if it tests any Employee. The Individual Employer shall put the Employee to work or pay the Employee pending the test results unless the Employer has probable cause to believe the Employee is impaired, intoxicated, or under the influence of a drug. The standards for probable cause are set forth below in Section B. If the Individual Employer does not allow an Employee to work pending the test results because it believes it has probable cause, it shall make the Employee whole for all lost wages and benefits if the Employee tests negative. The Individual Employer shall not be obligated to employ any such Employee after EAP releases the Employee to return to work but may employ such an Employee under the terms of a return-to-work agreement. An Employee who refuses to submit to a drug/alcohol test when dispatched shall not be paid show-up time.

An Individual Employer may test Employees who are recalled from layoff as provided for in the Job Placement Regulations who have not worked for sixty (60) days. If the Individual Employer tests any Employee who is recalled, it must test all such Employees. An Individual Employer may test all Employees at the time they are dispatched under this Section without testing those who are recalled.

B. PROBABLE CAUSE TESTING

An Individual Employer may require an employee to submit to a test as provide for in this Policy if it has probable cause that the Employee is impaired, intoxicated and/or under the influence of a drug. Probable cause must be based on a trained management representative's (preferably not in the bargaining unit) objective observations and must be based upon abnormal coordination, appearance, behavior, speech or odor. The indicators shall be recognized and accepted symptoms of intoxication or impairment caused by drugs or alcohol and shall be indicators not reasonably explained as resulting from causes other than the use of such controlled substance and/or alcohol (such as, but not by way of limitation, fatigue, lack of sleep, side effects of proper use of prescription drugs, reaction to noxious fumes or smoke, etc.). Probable cause may not be established, and thus not a basis for testing, if it is based solely on the observations and reports of third parties. The trained management representatives observations and conclusions must be confirmed by another trained management representative. The grounds for probable cause must be documented by the use of an Incident Report Form (see Form 'B' attached). The Management Representative shall give the Employee a completed copy of this Incident Report Form and shall give the Union Representative, if present, a copy of the Incident Form. The Employee shall be allowed enough time to read the entire document and to understand the reasons for the test.

The Management Representative also shall provide the Employee with an opportunity to give an explanation of his/her condition, such as reaction to a prescribed drug, fatigue, lack of sleep, exposure to noxious fumes, reaction to over-the-counter medication or illness, if available, the Union Representative shall be present during such explanation and shall be entitled to confer with the Employee before the explanation is required. If the Management Representative(s), after observing the Employee, and hearing any explanation, concludes that there is in fact probable cause to believe that the Employee is under the influence of, or impaired by, drugs or alcohol, the Employee may be ordered to submit to a drug test.

The Individual Employer shall advise the Employee of their right to consult with a union representative, including a Steward, and allow the Employee to consult with a Union representative before the Employee submits to the test, if the Union representative is available. Employees required to submit to a test under Section B will be paid for all time related to the test including the time the Employee is transported to and from the collection site, all time spent at the collection site, and all time involved completing the consent and release form if the test results are negative.

C. ACCIDENT TESTING

An Individual Employer may require Employees who are directly involved in work related accidents involving property damage or bodily injury that requires medical care to a test as provided herein. The innocent victims of an accident will not be subject to a test unless probable cause exists, The Individual Employer shall complete an Incident Report Form (see Form B attached) whenever it tests an Employee under this section.

D. RANDOM TESTING

An Individual Employer may initiate unannounced lottery testing; a selection process where all company employees are selected for testing and each company employee has an equal chance of being selected for testing. If an Individual Employer initiates such lottery testing, all company employees shall be subjected to such testing. An Individual Employer who initiates lottery testing shall specifically state in its notice to the Union and its notice to employees that employees will be subject to lottery testing. The Individual Employer shall give thirty (30) days' notice to the Union and employees prior to implementing a lottery drug testing program administered by an independent third party.

VII. EMPLOYER REFERRALS

A decline in an Employee's job performance is often the first sign of a personal problem, which may include a substance abuse or chemical dependency. Supervisory personnel will be trained to identify signs of substance abuse, chemical dependency and declining job performance. The individual Employer may formally refer an Employee to EAP based upon documented declining job performance or other observations prior to testing under Paragraph VI and/or disciplining the Employee.

VIII. EMPLOYEE VOLUNTARY SELF-HELP PROGRAM

An Employee who has a chemical dependency and/or abuses drugs and/or alcohol is encouraged to participate in an Employee Voluntary Self-Help Program. Any such Employee shall be referred to EAP Employees who seek voluntary assistance for alcohol and/or substance abuse may not be disciplined for seeking such assistance. Request by Employees for such assistance shall remain confidential and shall not be revealed to other Employees or management personnel without the Employee's consent. EAP shall not disclose information on drug/alcohol use received from an

Employee for any purpose or under any circumstances, unless specifically authorized in writing by the Employee.

The Individual Employer shall offer an Employee affected by alcohol or drug dependence an unpaid medical Leave of Absence for the purpose of enrolling and participating in a drug or alcohol rehabilitation program.

IX. PROHIBITED ACTIVITIES/DISCIPLINE

An Employee shall not possess, use, provide, dispense, receive, sell, offer to sell or manufacture alcohol and/or any controlled substances as defined by law or have any measurable amount of any such substance or by-product thereof as defined in Section V while on the Individual Employer's property or jobsite. An Employee shall not work while impaired, intoxicated or under the influence of alcohol and/or any controlled substance. An Employee who uses medication prescribed by a physician will not violate these rules by using such medication as prescribed if the Employee's physician has released the Employee to work. An Employee who uses over-the-counter medication in accordance with the manufacturer's and/or doctor's recommendation shall not violate the rules by using such medication. The Individual Employer may prohibit an Employee who is impaired as a result of proper use of prescription or over-the-counter drugs from working while Employee is impaired but may not discipline such Employee. An Employee who is impaired by misuse of prescription or over-the-counter medication violates the Policy and is subject to discipline as provided herein.

X. REHABILITATION/DISCIPLINE

The Individual Employer may discipline an Employee who violates any provision of Section IX. Such Employee is subject to disciplinary action up to and including termination. Among the factors to be considered in determining the appropriate disciplinary response are the nature and requirements of the Employee's work, length of employment, current job performance, the specific results of the test and the history of past discipline.

The Individual Employer is not required to refer to EAP any Employee who violates any provision of Paragraph IX which prohibits possessing, using, providing, dispensing, receiving, selling, attempting to sell or manufacturing prohibited substances before it disciplines the Employee. The Individual Employer may not discipline any Employee who violates any other provisions of Paragraph IX until such Employee has been offered an opportunity to receive treatment and/or counseling.

The Employee will not be discharged if he/she agrees in writing to undergo the counseling/treatment EAP prescribes. The Individual Employer shall re-employ the Employee when EAP releases the Employee to return to work if it has work available. It will not be required to lay-off any current Employee in order to re-employ the Employee. If it does not have any available when EAP releases him/her, it shall re-employ him/her as soon as it has work available. The Employee will be subject to a return-to-work agreement. The Individual Employer, the Union and the Employee will enter into a return-to-work agreement. The return-to-work agreement will require the Employee to comply with and complete all treatment EAP, or the treatment provider, as the case may be, determines is appropriate. It will also provide a monitoring of the Employee's compliance with the treatment plan EAP, or the treatment provider, develops and will allow the Individual Employer to require the Employee to submit to unannounced testing. The Individual Employer may discipline the Employee for not complying with the return-to-work agreement. A positive test on an unannounced test will be considered a violation of the return-to-work agreement. Any unannounced testing shall be performed in accordance with this Policy. The Union and the Individual Employer will attempt to meet with any Employee who violates the return-to-work agreement and attempt to persuade the Employee to comply with the return-to-work agreement.

Employees who are working under a return-to-work agreement shall be subject to all of the Individual Employer's rules to the same extent as all other Employees are required to comply with them.

XI. NON DISCRIMINATION

The Individual Employer shall not discriminate against any Employee who is receiving treatment for substance abuse and/or chemical dependency. All Employees who participate in EAP and/or are undergoing or have undergone treatment and rehabilitation pursuant to this Policy shall be subject to the same rules, working conditions and discipline procedures in effect for all Employees. Employees cannot escape discipline for future infractions by participating in EAP and/or undergoing treatment and rehabilitation.

XII. COST OF PROGRAM

Evaluation and treatment for substance abuse and chemical addiction are provided for through the Health and Welfare Plan. An Individual Employer who adopts this Policy will not incur any additional cost for assessment, referral and treatment beyond that which is incorporated into its health and welfare contribution rate. EAP is funded through the Health and Welfare Trust to provide its current level of service which includes performing assessments of Employees and their covered dependents, referral of Employees and covered dependents to treatment, monitoring of Employees and covered dependents who are undergoing rehabilitation and providing limited education and training programs to Individual Employers. The Individual Employer will pay all costs for testing.

XIII. GRIEVANCE PROCEDURE

All disputes concerning the interpretation or application of this Policy shall be subject to the grievance and arbitration procedures of the Pile Drivers Master Labor Agreement.

XIV. SAVINGS CLAUSE

The establishment or operation of this Policy shall not curtail any right of any Employee found in any law, rule or regulation. Should any part of this Policy be determined contrary to law, such invalidation of that part or portion of this Policy shall not invalidate the remaining portions. In the event of such determination, the collective bargaining parties will immediately bargain in good faith in an attempt to agree upon a provision in place of the invalidated portion.

XV. INDEMNITY LANGUAGE

Employer shall indemnify and hold the Union harmless against any and all claims, demands, suits or liabilities that may arise out of the individual Employers application or enforcement of this policy.

HUTCHESON LETTERS

Carpenters' Bldg.
222 E. Michigan Ave., Indianapolis, Indiana
M.A. Hutcheson, General President
United Brotherhood of Carpenters and Joiners of America

May 13, 1955

Mr. O.J. Lindell, R.S.,
Local Union No. 34,
457 Bryant Street
San Francisco, California

Dear Sir and Brother:

I am herewith submitting the findings of the General Executive on the controversy between carpenters and pile drivers classifications in the West Coast area.

The subcommittee convened Wednesday, July 15, 1954, and Thursday, July 16, 1954, in the Empire Room of the Sir Frances Drake Hotel, San Francisco, California. Testimony was received from forty-seven (47) witnesses representing Local Unions, District Councils and State Councils from the States of California, Oregon and Washington.

As indicated in the matter supplied to the subcommittee, from the General Office, we found that the main points of difference existing between the branches of our membership on the West Coast were:

- (1) An interpretation of what constitutes the "girder capping the piles."
- (2) What classification of our membership shall apply in the placing and erection of false work.

Additional clarification of what work properly comes under the classification of Pile Driver would help in clarifying the issues involved between both branches of our Brotherhood on the west coast:

- (1) In the construction of waterfront and marine facilities, such as docks, piers, wharves, bulk heads, jetties, and similar structures, the Pile Driver classification should continue to apply, up to and including the decking thereof.
- (2) On all pile driving and caisson work on both land and water, Pile Driver classifications should apply.
- (3) In the construction of wooden bridges whether over land or over water, when composed of heavy timber, the Pile Driver classification should apply.
- (4) In the construction of concrete or steel bridges over land, the Pile Driver classification shall apply to the driving of the piles and/or caisson work including the forms required for the capping of the piles or caisson. The "capping of the piles" is herein interpreted as being that concrete, wood or other material resting on top of the piles, where driving or placed and does not include any further form work above the capping. In many instances, it has been found that the capping is called "the girder."

The above shall apply on such concrete or steel bridges constructed over land, highways, railroads, overpasses, and include cloverleafs, interchanges, etc.

- (5) In the construction of concrete or steel bridges over water, the Pile Driver classification shall apply up to and including all of the form work to the top of the column, piers, or abutments supporting the steel and/or any other superstructure.
- (6) In the erection of false-work, when necessary for the support of work under the Pile Driver classification, then such false work shall fall within their classification. False work necessary for the support of work under the Carpenter classification, with the exception that where pile driving or power equipment is used for heavy timber false work, then such work shall come under the Pile Driver classification. This would include all rigging, signaling, and tagging incidental to the placing of the heavy timber.
- (7) In the construction of open-cut sewers, the Pile Driver Classification shall apply on all piling including wood, steel or concrete sheet piling, all bracing timber and form work incidental to the construction thereof.

In concluding this report the General Executive Board believes that the defining of the words "girder capping the piles" herein outlined will tend to solve much of the misunderstanding that has existed between the two classifications of our membership on the West Coast. All of the above shall be effective only in the West Coast where the controversy occurred.

Mr. M.A. Hutcheson, General President
United Brotherhood of Carpenters and Joiners of America Carpenters Building,
222 East Michigan Street Indianapolis, Indiana

Dear Mr. Hutcheson:

The Northern California Chapter and the Central California Chapter of the Associated General Contractors of America, Inc. and the Pile Driving Contractors Association are parties to the Pile Driving Agreement with Local No. 34 of the Pile Drivers, Bridge, Wharf and Dock Builders Union covering the 46 Counties of Northern California. The A.G.C. Chapters are also parties to two Master Agreements covering Carpenters in the same geographic area. In order to perpetuate the fine relationships which have been built up over the years between our organizations, representing the contractors and the Pile Driver and Carpenter organizations in Northern California, it is strongly felt that there is a definite need for clarification of your letter of May 9, 1955, containing the findings of

the General Executive Board of the United Brotherhood concerning the controversy between the Carpenters and Pile Drivers' classifications on the West Coast.

Specifically, clarification is desired on the following five points covered in the above-mentioned letter:

1. What did you intend to constitute a "bridge over water" within the meaning of paragraph five (5) of your letter dated May 9, 1955?

- (a) For example, near Petaluma, California, two parallel concrete highway structures were constructed under a single contract over U.S. Highway 101, the railroad tracks of the Northwestern Pacific Railroad and Petaluma Creek. The overall length of the structures were erected in three sections. The first section, which was approximately 360 feet long, was constructed over the highway and the railroad tracks and terminated at a coffer-dam and piers at the south bank of the creek. The second section, which was approximately 415 feet long, extended from a highway fill across agriculture land to a coffer-dam and piers at the north bank of the creek. The third section, which was approximately 115 feet long, consisted of 16 pre-cast 75-ton concrete girders extending over Petaluma Creek which were put in place by a floating derrick.

Would you have intended that the 115-foot section spanning the creek, which constitutes less than 1/8 of the entire structure, would make the entire structure a "bridge over water?"

Or would the term "bridge over water" be limited to the section which actually spanned the creek?

- (b) For another example, near King City, California, a concrete structure is being constructed across the Salinas River. During the dry season, which will cover the entire construction period, the river bed is crossed by a road which carries heavy truck traffic.

Would you intend this structure to be a "bridge over water?"

- (c) Did you intend the term "bridge over water" to include a structure being constructed over a dry bypass which is designed to carry water only during flood conditions, which occur only once in several years?

- (d) Did you intend a structure over a ravine or other depression which carries water, if at all, only during the spring run off and outside of the construction period?

- (e) Did you intend the term "bridge over water" to include a structure over a man-made canal or aqueduct?

2. Under paragraph six (6) of your letter dated May 9, 1955, did you intend the falsework necessary for the support of the deck of a concrete or steel bridge over water to carry the Carpenter classification, except where pile driving or power equipment is used for heavy timber falsework?

3. Did you intend the term "pile driving or power equipment," as used in paragraph six (6) of your letter, to mean pile driver, derrick or similar power equipment, which is the terminology that has been used in our Pile Driving Agreement for many years?

4. Do forms constructed on the ground out of 2" x 4" and 2" x 6" lumber and 5/8" plywood constitute "heavy timber falsework, " within the meaning of paragraph six (6) of your letter, merely for the reason that, when assembled, they must be put into place by power equipment?
5. Does paragraph seven (7) of your letter refer only to work within the recognized jurisdiction of the Pile Drivers Union?

The foregoing examples and questions are typical of the problems which arise in applying your letter of May 9, 1955, to construction projects in this area. Projects very similar to those given as examples under question 1 above are soon to be advertised for bids. As you are aware, it is important to the contractors that they clearly understand your letter, since if there is any misunderstanding, as to particular work, those contractors who interpret your letter as placing the work under the Pile Driver classification will lose out in bidding for such work, while the contractor who obtains the work upon the assumption that it comes under the Carpenter classification will suffer serious loss if he has to perform the work under the Pile Driver classification. You are the only one who can settle these problems, since on matters of this sort our Pile Driving Agreement provides that the parties will recognize formal rulings of the International President of the United Brotherhood.

Yours very truly,

CLARIFICATION OF REPORT OF SUB-COMMITTEE OF GENERAL EXECUTIVE BOARD ON
CARPENTER-PILE DRIVER MATTER ON WEST COAST

November 11, 1955

Dear Sir and Brother:

At your request the sub-committee, consisting of Board Members Rajoppi, Chandler, and Johnson, considered the requests of the Northern and Central Chapter of the Association General Contractors of America, Inc., dated July 17, 1955, for clarification of certain portions of the findings of the General Executive Board on the controversy between Carpenters and Pile Drivers in the West Coast area as contained in your communication dated May 13, 1955, and forwarded to all Local Unions, District and State Councils in the States of California, Oregon and Washington.

The sub-committee has drawn up clarifications to the five questions contained in the contractors' request. Some of these questions have various sub-divisions and the clarifications will follow each question or subdivision.

Question 1(a) of the Association General Contractors refers to paragraph (5) of the findings of the General Executive Board of May 13, 1955.

Clarification: On "bridge over the water" the columns or abutments in water and at the water's edge, or the first column or abutment on land adjacent to water's edge, shall come under the Pile Driver classification.

Question 1(b) refers to rivers that are dry in season.

Clarification: Still considered a "bridge over water" and covered by clarification of paragraph (5) in answer to question 1(a).

Question 1(c) refers to "bridge over water" being constructed over a dry by-pass designed to carry floor waters.

Clarification: The answer is Yes. Similar to clarification of question 1(b) and is considered a "bridge over water."

Question 1(d) refers to structures over ravines or depressions which carry water during spring runoff.

Clarification: The answer is Yes. Same as answer to question 1(b) and is considered as a "bridge over water" and as qualified in clarification of question 1(a).

Question 1(e) refers to "bridge over water" and also man-made canal or aqueduct.

Clarification: Same answer as in 1(a), 1(b), 1(c), and 1(d).

All clarifications of paragraph 5 of findings of the General Executive Board of May 13, 1955, and referring to "concrete or steel bridges over water" is based upon piles being driven, caissons sunk or cofferdams erected by Pile Drivers under Pile Driver classification on such concrete or steel bridge foundations.

Question 2 refers to Paragraph (6) of the findings of the General Executive Board.

Clarification: The answer is Yes. Falsework necessary for the support of the decking of a concrete or steel bridge over water shall come under the Carpenters classification. Falsework for such decking is under the Carpenter classification excepting where pile driving or power equipment is used.

Question 3 refers to pile driving or power equipment.

Clarification: The sub-committee feels that the words "pile driving or power equipment" are in themselves completely explanatory and feels no further definition is required for anyone acquainted with the construction industry.

Question 4 refers to forms constructed on the ground out of 2 x 4 and 2 x 6 lumber and 5/8 plywood.

Clarification: The sub-committee does not interpret "forms" to be "heavy timber falsework" within the meaning of paragraph (6). If any dimension forms are fabricated on the ground for work coming under the Carpenters classification, then such forms can be put in place by power equipment under the Carpenter classification. Forms coming under the Pile Driver classification as outlined in the findings of the General Executive Board shall be installed or placed under such Pile Driver classification. If

heavy timber falsework, consisting of support for forms, installed under Carpenter classification and pile driving or power equipment is used, then such installation of "heavy timber falsework" shall be done under the Pile Driver classification as plainly stated in paragraph (6) of the General Executive Board's findings.

Question 5 refers to paragraph (7) of the General Executive Board's findings and refers to the construction of open-cut sewers.

Clarification: The sub-committee of the General Executive Board feels that paragraph (7) is so plainly worded without any limitations that anybody familiar with the construction industry can clearly understand this paragraph without any interpretations being required.

The above clarifications requested by the Associated General Contractors' organizations in the West Coast area are recommended to the General Executive Board by the sub-committee, who feels that many of these requests could be settled by discussions between the contractors and our membership affected in the West Coast area. It would be impossible to answer the myriad of questions that may be asked for interpretation of any finding, contract, or agreement and your sub-committee feels that the industry as a whole in the West Coast area should make a genuine effort to work out equitable solutions of further questions that may arise on the findings of the General Executive Board in this subject matter, as contained in the letter addressed to all Local Unions, District and State Councils in the States of California, Oregon and Washington and signed by you as General President under date of May 13, 1955.

Respectfully submitted,

Re: Carpenter-Pile Driver matter in West Coast area

December 12, 1967

Dear Sir and Brother:

In complying with your request, the Sub-Committee of the General Executive Board, appointed by you to review the 1955 General Executive Board Decision on West Coast Carpenter-Pile Driver matter, have met several times to consider the new problems that have arisen since the 1955 Board Decision.

Your Sub-Committee held two days of hearings at the Del Webb Town House in San Francisco, California, on March 21 and March 22, 1967, at which sixty-three Officers and Business Representatives of our subordinate Locals and District and State Councils testified on the subject matter. In addition, twelve representatives of various Contractors Associations met with your Sub-Committee and presented their points of view on several issues relative to new methods and techniques developed in the years since the original 1955 decision. The transcript of the hearings consisted of several hundred pages and the General Office is in possession of a copy of same.

The hearings brought out that the principal items of work where there were different opinions and interpretations amongst our membership, and also between the employers and our membership, mainly consisted of the following:

- (A) Dry Aqueduct or canal structures
- (B) Building Foundations
- (C) Tank Foundations
- (D) Base foundations for Machinery, Equipment and Stanchions
- (E) The erection of falsework, including metal tubular or "tinker toy" material used in falsework.

Your Committee, after careful review of the transcript of the March 21 and March 22, 1967, hearings, finds it necessary to further clarify intentions of the General Executive Board decision on May, 1955, and to modify where necessary consistent with the evidence presented to the Subcommittee at this March, 1967, hearing, in order to guide our West Coast membership in their jurisdictional differences on work issues and to assist our Employers in the correct and harmonious operations of their projects. The work jurisdiction of our Carpenters and Pile Driving branches of our Brotherhood on the West Coast shall be as follows:

- A. (1) In the construction of waterfront and marine facilities, such as docks, piers, wharves, bulkheads, jetties and similar structures, the Pile Driver classification shall continue to apply, up to and including the decking thereof.
- A. (2) On all pile driving and caisson work, on both land and water, the Pile Driver classification shall apply.
- A. (3) In the construction of heavy timber, wooden bridges, whether over land or over water, the Pile Driver classification shall apply.
- A. (4) In the construction of concrete or steel bridges over land, highways, railroads, overpasses, cloverleaves, interchanges, or bridges over man-made canals, aqueducts, spillways and man-made water retaining areas, the Pile Driver classification shall apply to the driving of piles, caissons and "drilled-inplace" piling. The fabrication and erection of the forms for capping of piles, caissons or "drilled-in-place" piling shall come under the Pile Driver classification. This shall include the placing of wooden or steel capping or any substitute thereof.

Any other form work above the cap, pertaining to the construction operations herein noted above, shall be performed under the carpenters classifications. This shall also include bridges over man-made canals, aqueducts, spillways and man-made water retaining areas, if constructed prior to water being released or turned into the area.

- A. (5) In the construction of concrete or steel bridges over water, the fabrication and erection of the form work for the pier or piers in the water area, and the pier or abutment on land, nearest to the water's edge, shall be under the Pile Driver classification. This shall include the fabrication and erection of the form work to the top of the pier, column and abutment supporting the steel and/or any other super structure.

The fabrication and erection of forms for the piers, columns or abutments for the approaches to the first pier or abutment on water's edge, shall be under the Carpenters classification. This

shall apply also on a bridge over an area where the flow of water has been temporarily diverted.

B. Building Foundations

All form work required on building foundations shall be under the Carpenters classification, irrespective of the use of piles or caissons.

C. Capping of piles or form work on Tank Foundations

The capping of piles and form work in connection therewith, where there is no other carpenter form work involved above the capping or floor base of tank, shall be under the Pile Driver classification. Where further carpenter work is required above the capping or tank base, then the Carpenter classification shall apply on entire operation, including the forms for pile capping and/or tank base.

D. Base Foundations for Machinery, Equipment and Stanchions

The fabrication and erection of all forms of machinery, bases, equipment or stanchions shall be under the Carpenters classification.
